Objective

As a dedicated and detail-oriented Information Technology student at Consolatrix College of Toledo City, I am seeking an opportunity for On-the-Job Training in a reputable organization where I can apply and enhance my skills in programming, networking, and systems analysis. I am eager to contribute to real-world IT projects, gain hands-on experience, and develop my technical and problem-solving abilities to prepare for a successful career in the IT industry.

Experience

2021 – 2022

DMA GAS STATION

Service Master

- Dispense fuel into vehicles accurately.
- Check oil, water, or tire pressure upon request.
- Handle payments and provide receipts.
- Maintain the cleanliness of customer areas (restrooms, store front)
- Refill windshield washer fluid stations or paper towel dispensers.

2022 - 2023

Shopee Express Delivery

COURIER/DELIVERY RIDER

- Picked up and delivered packages to customers on time.
- Verified customer identity and obtained signatures upon delivery.
- Adjusted delivery plans in real-time to avoid delays.

2021 - 2025

Cellphone Technician Board Level

Certified Technician

- Inspected mobile phones for issues such as boot errors, screen damage, or hardware failure.
- Used diagnostic tools or software to identify technical problems.
- Replaced faulty parts like screens, batteries, charging ports, and cameras.
- Performed software updates, flashing, and factory resets.
- Explained technical issues and repair options to customers in simple terms.

Qualification Skills

- Writing simple scripts, basic algorithms, debugging, working with variables, loops, and functions as a programmer.
- Able to assist in computer troubleshooting, system maintenance, and basic network configuration.
- Works well independently or with a team. able to communicate clearly with clients and co-workers.
